Climate

Summer in Greece

The climate in Greece is typical of the Mediterranean climate with two seasons - a warm and dry summer, and a mild and wet winter. Summer is a long season with temperatures climbing to a pleasant degree as early as late February. March and even April can be somewhat unpredictable months with the occasional rain shower and windy conditions though at this time of year the

landscapes are decorated with beautiful wild flowers.

The shoulder months between May and June still offer lovely weather conditions but without the crowds. It's warm on the islands and the waters are nice enough for a swim. Peak tourist season doesn't start until mid-June and lasts until early September. During this time the islands are buzzing with people, both travellers and locals alike. If you're visiting during this time it's best to book hotels, flights and local ferries as far as in advance as possible to avoid disappointment and secure better prices.

Between September and mid-October the soft light and delicate colours are particularly suited to photography. The sea water retains the heat of the mid-summer months so swimming is definitely still on the cards.

Winter in Greece

By late-October many parts of Greece begin to experience stormy conditions with more frequent cloud cover and rain showers. The tourist season comes to an end and prices drop off considerably. Few international travellers visit the Greek islands between November and February so crowds are thin.

Time & Voltage

Greece lies in the Eastern European Time Zone, which is 2 hours ahead of Greenwich Mean Time (GMT +2).

During summer, daylight-saving is observed in Greece, where the time is shifted forward by 1 hour so it becomes 3 hours ahead of Greenwich Mean Time (GMT +3). After summer the time in Greece is shifted back by 1 hour to Eastern European Time. In 2017, daylight savings takes place between 26th March and 29th October.

Standard voltage is 220-240 volts. Primary sockets generally require European plugs of the two round-pin variety. We recommend that you pack a universal travel adaptor. You will need a voltage converter and plug adaptor in order to use U.S. appliances.

Health Requirements

You should seek medical advice from your local health practitioner before travelling to Greece and ensure that you receive all of the appropriate vaccinations. Just make sure you're up to date for recommended vaccinations for your home country, including measles, mumps and polio. Other vaccines to consider are Tetanus and Tick-borne Encephalitis. Visit the NHS Fit to Travel page or the CDC Traveler's Health Page for more information.

Currency & Holiday Money

The official currency in Greece is the Euro. Check OANDA for latest exchange rates.

British Pounds, US Dollars and other major currencies can be easily exchanged locally in banks or bureau de change prior to departure. Credit cards such as Visa and Mastercard are widely accepted in most major hotels, restaurants and shops, but keep some cash on hand, especially on the islands and in smaller towns. Use of American Express is not as common.

Traveller's Cheques are not recommended as they're often difficult to exchange and incur high fees

Although Greece has become a hugely popular tourist destination in recent years, it remains relatively affordable. We recommend if you are on a budget that you avoid the often overpriced restaurants and cafes that line the main squares and chose places to eat a few streets back. A meal in an inexpensive restaurant with drinks will cost around USD \$12, and a pint of domestic beer costs about USD \$4.10, while a one way ticket on public transport will only set you back about USD \$1.65.

Shopping

Greece is a cultural haven, and you will find a wide range of arts and crafts wherever you go. Locally hand-crafted ceramics, textiles, wood carvings, and jewellery make for wonderful souvenirs, especially from the Greek islands. Many destinations pride themselves on specific products – for instance, the monasteries at Meteora are famed for hand-painted religious icons. If you

are shopping for antiques, do beware of fakes and stick to reputable traders.

In Athens, the ancient tradition of the agora (public forum) continues today in spaces such as the Monastiraki market, where you will find souvenirs for all tastes, ranging from tailor-made leather sandals to mass-produced Parthenon replicas. Another popular shopping option nearby is Ermou Street, which offers a wide selection of local and international brands. The island of Thessaloniki also caters to shoppers with its boutique-filled main square and a variety of malls near the city centre.

If you are looking to bring a taste of Greece home with you, olive oil from the Peloponnese, honey from Attica, and wines from Santorini are excellent products to look out for.

Is bargaining acceptable in Greece?

Bargaining is generally not accepted in Greece - in most shops there will be a fixed price for goods on sale. In the flea markets and with street vendors, a bit of bargaining may be more appropriate.

Greek Cuisine

Greek food has a venerable history dating back to antiquity. Although the country's rocky terrain limits its agricultural output, cooking and cuisine are essential to its culture. Olives, cheese, and wheat are integral parts of the local diet, appearing in salads, stews, and breads. Seafood at restaurants – often squid, octopus, mussels, and fish - is likely to come fresh from the Mediterranean, especially on the Greek islands.

Greek cuisine is simple but incredibly varied. In terms of popular dishes, you will find moussaka (aubergine & lamb casserole), souvlaki (spit-roasted meat), and dolmades (vine leaves stuffed with meat & herbs) in many tavernas and restaurants, sometimes with regional variations. Meat-free options include briam (roasted vegetables in tomato sauce), and of course, Greek salad with olives & feta cheese. For indulging your sweet tooth, pastry shops serve delicacies such as Turkish-inspired baklava (filo pastry layered with honey and chopped nuts). Ice cream and

honey with yogurt are also common sweet snacks.

Drinks are a major part of the traditional dining experience. Ouzo, an anise-flavoured spirit distilled from pressed grapes, is Greece's most popular alcohol, usually served as an aperitif with iced water and some small appetizers. Be careful not to drain your glass too quickly – it is a strong drink, meant to be enjoyed over a period of time.

Drinking Water

In the major cities, it's generally safe to drink water from taps and also from drinking fountains. However, it is strongly recommended to stick to bottled water on most islands and in rural areas.

Tipping

Tipping customs in Greece vary widely. Service charge may be included in the bill, but tipping remains a common practice, especially in popular tourist destinations. Your tip should reflect the service so if it was excellent, 10% is an added bonus. At some restaurants, a small mandatory 'cover charge' for bread & water is also included in the bill (usually about one Euro per person). Taxi drivers usually expect tips and it is also standard to tip hotel porters and local tour guides. If the concierge is particularly helpful, people often tip 1 to 2 Euros.
